COLLECTORS.

"The pursuit and study of the Fine Arts in their various branches, have been a source of constant enjoyment to me in the intervals of business, and often of great solace and relief at trying periods, and this alone would be a pleasurable indemnification for my investments, should they fail to be commercially reproductive. It is said that Collectors usually have long lives, and I cannot help feeling that the cheerful exercise of the mind and body which belongs to the pursuit, warrants the assertion; and I hope in due time to say, *probatum est*."

# THE COINAGES OF THE WORLD, ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

PRICE—CLOTH, \$2.50. HALF MOROCCO, \$3.50.

## CRITIQUES.

*The New York Times of December 27th, says:*

"What every student of Coinages—not the mere collector of old coins—wants to know."

*The New York World of November 27th, says:*

"Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference."

*The New York Evening Post of November 29th, says:*

"A work of great interest to numismatists and collectors of coins. \* \* \* The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries."

*The New York Daily Graphic of December 23d, says:*

"Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference."

*The American Journal of Numismatics of January 1st, says:*

"This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared."

*The Coin Collector's Journal of January 1st, says:*

"This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Ægina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Grecia Magna to Rome, and so down through the Byzantine Empire to Medieval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of the world, and should be in every house."

## **A REVISED LIST**

OF ALL

# **Postage Stamps and Stamped Envelopes,**

This is the only work of the kind ever published in America, and in the short space of two months has become the standard of all English-speaking stamp collectors. It contains an accurate list of every postage stamp ever issued, minutely describing every variety of color, water-mark and paper, together with all the minor details concerning the different dies of the same stamp. It is fully illustrated with about fifteen hundred engravings, and besides being the latest is the most accurate work of the kind ever printed. Numerous notes explain every doubtful point in Philately, and give many interesting details concerning the causes which led to the issue or suppression of noted stamps. Mr. Coster's valuable monograph on the United States locals is added entire, forming a work which no collector who has outgrown the boy period of pasting stamps in a copy book can afford to be without. It is not a price list or a dealer's advertisement in any sense of the word.

## **The Coin Collector's Journal,**

A PERFECT

**Encyclopedia of Numismatic Learning.**

MESSRS. SCOTT & COMPANY would call the attention of all coin Collectors to the merits of the above work, it being an indispensable companion of every well informed amateur. The special feature of each number is an accurate review of the coin sales of the month, with quotations of the prices realized for all the principal pieces. By this means collectors are kept posted as to the value of their coins and are thus enabled to buy or sell with profit. Readable articles on the coins of every nation, simplified by the aid of numerous illustrations, enable its readers to be well posted as to the nationality of all coins. We do not make it a practice (as has usually been the case), of illustrating those rare and costly coins which are seldom found outside of museums or the collections of Princes, but aim rather to illustrate those puzzling pieces which find their way into every collection, and can rarely be located by their owners. Another monthly feature of the JOURNAL is an illustration of some rare coin in the hands of one of its subscribers, giving such additional particulars concerning it as may be furnished by its owner.

## THE MERCHANT FLAGS OF THE WORLD.

AUSTRIAN-ITALY.

BRAZIL.

FINLAND.

Uncolored fac-similes, showing size and style.

"These brilliant colored Flags faithfully represent the emblems of the different nations of the earth, and as such are a great acquisition to any Album, while the exceedingly low price (25 cents) at which they are published, places them within the reach of all."

"This Chart containing many Flags never before published, has been collected with great care, and can be relied upon as being strictly accurate, and by its aid the nationality of any ship may be easily determined, as it gives the Flag of the NATION instead of the gorgeous piece of bunting which simply belongs to one family, and is seldom, if ever, seen out of their country."

"These sheets possess three great advantages (to the Collector) over any other we are acquainted with, which consist in the facts that there is only one Flag to each country: more nations represented than have heretofore been given, and only Flags of those countries which issue postage stamps. These we consider of great importance to those who buy them to put in albums, as they can use them all instead of having to throw away half the purchase. The colors are very brilliant, and withal correct, and being printed on very thin paper, the book is not swelled to an inordinate thickness."

Beautifully and correctly printed in FIVE colors on fine heavy paper for framing, or thin paper for albums. Price only 25 cents.

In ordering please state which paper is required.

## THE COATS OF ARMS OF THE WORLD.

(RUSSIA.)

As a sheet for framing, it is an acquisition to any drawing room, and is indispensable in the library or study.

As a guide to determine the nationality of foreign coins or postage stamps, (most of which bear the issuing countries' arms), it will be found of great service. While cut up and inserted in stamp albums, they will be found to add much to the appearance of the page.

Printed on fine heavy paper for framing, or on the same quality of thin paper for inserting in albums. Price, 50c.

### VOLUME V.

This contains part of Vol. IV. also, so as to give the commencement of the valuable article, "The Coins of the United States," a wonderful monument of perseverance and painstaking research into the copper coinage of the United States. Gives minute descriptions of every die used in striking the cents and half cents, and exposes some counterfeits which have long deceived collectors. Contains also descriptions of a large number of foreign coins. Well illustrated. Price, 50 cents; post free, 56 cents.

### VOLUME VI.

This volume is equal, if not superior, to any which has preceded it. The striking feature is a complete illustrated history of "U. S. Bank Tokens," 1837, or Jackson cents, as they are variously called. Many of these tokens, which before the publication of this article sold for a few cents, or two dollars at the most, now sell as high as \$40. It also contains the usual amount of miscellaneous information and a large number of illustrations. Price, 50 cents; post free, 56 cents.

### VOLUME VIII.

The special feature of this volume is Dr. Morris's series of papers on Roman coins, the best work on the subject ever written in condensed form, thousands of Roman coins are here described and an illustration given of every Imperial Roman, whose portrait adorns the coinage of ancient Rome. This splendid history of the coinage of the ancients is illustrated with one hundred and twenty superb engravings of Roman coins, all made expressly for this work, regardless of cost, the results being the very best guide to the knowledge of Roman coins in the English language.

The remainder of the volume is filled with a miscellaneous collection of papers of interest to collectors of American coins, and should be in the hands of every collector. 212 pages, 221 illustrations. Strongly bound in cloth. Price, \$2.50; post free, \$2.65.

A limited number of all the volumes from I to VIII, inclusive, bound in the same style, can be had at the same price. The complete set for \$20, sent free by express, to any part of the U. S. Indispensable to all coin collectors.
